

We believe in changing the status quo. We believe in thinking differently. We believe in innovation. It is the same purpose which inspires us to get better every day and serve this world with the right notion, making it a better place to live.

Product Description

Alluring Artistry

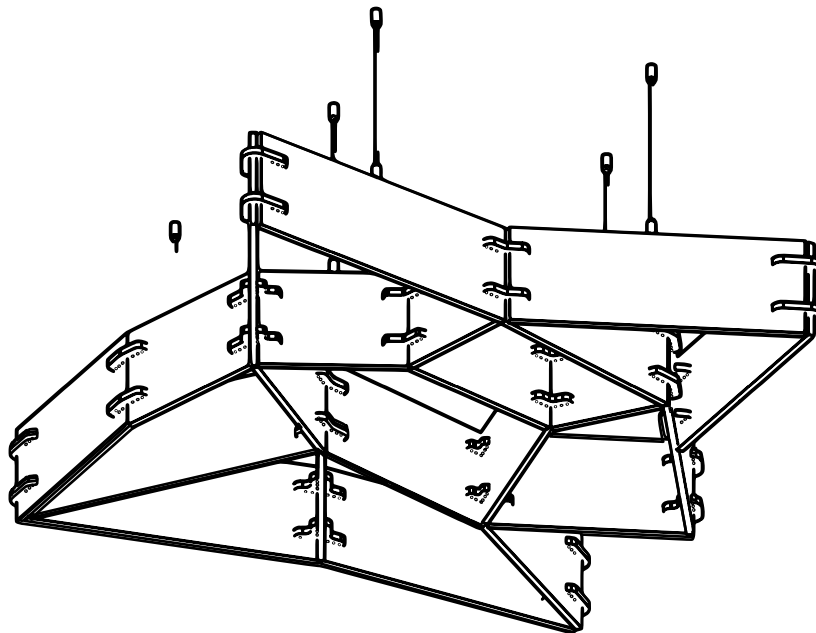

Senses Akustik Octa, with its grided layout configurations, works as an easy fix for unappealing rooms and office spaces. These modular ceilings work as a one-stop solution for creating an enticing and pleasant interior decor.

More Color Options than a Rainbow

Rather than coming to terms with the bland color scheme, you can benefit from our wide range of color options. Be it a blossoming ochre or subtle somber; we have what your office demands.

Beautiful Aid in Noise Reduction

These acoustic ceilings are made with 100% PET, out of which 60% is recycled. Such a mixture of technology absorbs the additional noise and creates an echo-free environment inside.

Standard Module
